Overview

This document provides details on the API endpoint used to pull lead data from Bayut. It includes the endpoint URL, authorization requirements, query parameters, and sample responses. The provided document offers a comprehensive guide to the API endpoint designed to retrieve lead data from bayut. This encompasses a range of essential details, including:

- **Endpoint URL:** The specific web address to which API requests should be directed.
- **Authorization Requirements:** The necessary credentials or permissions needed to access the API and retrieve data.
- **Query Parameters:** The parameters that can be included in the API request to filter or refine the data returned.
- **Sample Responses:** Examples of the data that can be expected in response to API requests, aiding in understanding the structure and format of the returned information.

By providing this information, the document enables developers to effectively integrate the bayut lead data into their own applications or systems.

Endpoint

None

www.bayut.com/api-v7/stats/website-client-leads

This API allows clients to fetch lead data based on specific query parameters.

Authorization

Each client is provided with a unique API key, which must be passed as a bearer token in the authorization header.

CURL Request

None

```
curl --location  
'www.bayut.com/api-v7/stats/website-client-leads?timestamp=2025-03-10%2000%3A00%3A00&target=listing&type=email&is_trulead=1' \  
--header 'Authorization: Bearer <API KEY>'
```

Query Params

Parameter	Description	Possible Values
type	The type of lead	whatsapp, sms, phone, email
timestamp	The date and time of the request	Format: YYYY-MM-DD HH:MM:SS
target	The entity for which leads are fetched	listing, agent, agency
is_trulead	Whether its lead or just views count	0, 1

Get Leads

The below examples demonstrate API responses for leads based on specific lead types and targets.

Email Listing Lead

URL

None

```
www.bayut.com/api-v7/stats/website-client-leads?timestamp=2025-03-10%2000%3A00%3A00&target=listing&type=email&is_trulead=1
```

Response

None

• Phone Agent Views	18
• Phone Agency Views	19

Overview

This document provides details on the API endpoint used to pull lead data from Dubizzle. It includes the endpoint URL, authorization requirements, query parameters, and sample responses. The provided document offers a comprehensive guide to the API endpoint designed to retrieve lead data from dubizzle. This encompasses a range of essential details, including:

- **Endpoint URL:** The specific web address to which API requests should be directed.
- **Authorization Requirements:** The necessary credentials or permissions needed to access the API and retrieve data.
- **Query Parameters:** The parameters that can be included in the API request to filter or refine the data returned.
- **Sample Responses:** Examples of the data that can be expected in response to API requests, aiding in understanding the structure and format of the returned information.

By providing this information, the document enables developers to effectively integrate the Dubizzle lead data into their own applications or systems.

Endpoint

None

<https://dubizzle.com/profolio/api-v7/stats/website-client-leads>

This API allows clients to fetch lead data based on specific query parameters.

Authorization

Each client is provided with a unique API key, which must be passed as a bearer token in the authorization header.

CURL Request

None

```
curl --location  
'https://dubizzle.com/profolio/api-v7/stats/website-client-leads?  
timestamp=2025-03-10%2000%3A00%3A00&target=listing&type=email&is_  
trulead=1' \  
--header 'Authorization: Bearer <API KEY>'
```

Query Params

Parameter	Description	Possible Values
type	The type of lead	whatsapp, sms, phone, email
timestamp	The date and time of the request	Format: YYYY-MM-DD HH:MM:SS
target	The entity for which leads are fetched	listing, agent, agency
is_trulead	Whether its lead or just views count	0, 1

Get Leads

The below examples demonstrate API responses for leads based on specific lead types and targets.

Email Listing Lead

URL

None

```
https://dubizzle.com/profolio/api-v7/stats/website-client-leads?timestamp=2025-03-10%2000%3A00%3A00&target=listing&type=email&is_trulead=1
```

Response

None
